

Miniature Kite Guild

is the place for all things dealing with miniature kites.

It is a place to

- share your kites,
- learn about kites,
- meet kite makers,
- learn to make your own kites,
- chat with your fellow kiter
- or find kites for your collection.

Long Term Goals

- answer the question how many kites did Charlie Sotich make? By collecting the largest photo gallery of Charlie made kites.
- expand the number of miniature kite makers and collectors around the world by providing the tools and information needed by others to join in our hobby.
